About the Children's Forest

The Children's Forest of Central Oregon is our region's most powerful alliance to get more youth outside. It is a partnership between local agencies to enhance the lives of kids — of all backgrounds and abilities — by connecting them with nature. Our mission is to break down barriers that children and families face in order to help bring all of the amazing benefits of nature to those who might not otherwise have these experiences. We offer family programs, after school programs, internships, teacher trainings, and field trip funding and resources.
